

Request for Quotation – Commercial Group Metering

In order to quote metering equipment correctly, ***we must know which utility service area it is being installed in.*** Please note that all commercial metering equipment is subject to utility approval. Approval required before purchasing.

All Commercial Metering equipment ***must be quoted and purchased through an electrical distributor or supply house.*** Any electrical distributor can purchase from Erickson Electric.

Please provide as much of the following information as is available:

- Electrical Utility service area * required *
- Ampacity
- System
- Service voltage
- Top or bottom feed
- Type of main device
- Number of meters
- Size of disconnects
- Size of line and load conductors
- Available wall space
- Engineering drawing of electrical layout

If equipment is being added to an existing meter bank, please provide a picture of the full meter bank, as well as the nameplate on the main device. (It is important that the horizontal cross-bus matches what is in the existing equipment)

For a quote, please email the information above to sales@ericksonelectric.com
